For those curious, the term "NFP-Only" is an oversimplified term. "NFP-only" is an oversimplified term. "NFP-only" is an older term that describes a resident who avoids intentional contraception and sterilization for various reasons. Some express concern about negative social and moral effects of contraception and hold that fertility awareness can lead to healthier relationships and stronger families. NFP-only residents are typically not restricted from prescribing hormones or performing procedures that are medically indicated (hysterectomy for MTA, OCPs for PCOS, etc). In fact, many residents have additional knowledge in their repertoire for treating gynecologic conditions from additional training they have sought. The chief criticism of NFP is that it is ineffective, but this is simply not true. Multiple studies have shown that various methods of NFP have a method effectiveness exceeding 97%. (Manhart Michael D., Duane M., Lind A. L., Sinai I., and Golden-Tevald J. 2013. Fertility awareness-based methods of family planning: A review of effectiveness for avoiding pregnancy using SORT. Osteopathic Family Physician 5: 2–8. doi: 10.1016/j.osfp.2012.09.002 - contact us if you do not have access to the publication and we can get you a copy!)

Also please note that residency programs are ever-changing, and different applicants can have different experiences with different residents and staff. This info is here to help get an overview of previous experiences to get at least some idea of the program's culture. Still, applicants must use prudence to determine when, where, and how to broach certain subjects. CONNECTICUT	Stamford Hospital/Columbia University	Stamford								
CONNECTICUT	St. Francis Hospital	Hartford			0	0	0	0		17-'18 Season: Assistant PD was supportive, but currently no NFP residents '17-'18 Season: Technically 'Catholic' program which prescribes birth control in theirclinic. PD however said that they are supportive of NFP-only residents. PD said during presentation that he feels that we should go to outside rotation to counsel for terminations but we can opt out if we chose. At least one resident expressed dissatisfaction with the restrictions in family planning services because the hospital was Catholic. 2015: Catholic hospital with a big orthodox jewish presence. A lot of the patients are very conservative so the PD understood my beliefs. He was willing to work with me and even encouraged research in the area of NFP.

DC	Washington Hospital Center (Georgetown)	Washington	0	0	0					2015: no longer Georgetown, this program now serves an amalgamation of three hospitals and lays emphasis on ACOG's way of doing this, including prescription of contraception. ILLINOIS	U of Illinois at Peoria	Peoria		1	0	1	0	0	0	17-'18 Season: Napro is mentioned on the residency website, as you get to train with Dr Stalling! However, the PD is not wild about the idea of NFP-only residents. Still, there is a current NFP-only PGY3 who loves the program, and Dr Naomi Whittaker graduated here and loved the program also. Dr Whittaker is very open to talking to anyone interested in OBGYN, so feel free to contact her! (If you need her contact info, contact website administrators!) 2018: Very Catholic hospital that follows strict ERDs. You are under no pressure at all practicing as a faithful Catholic. Our main resident clinic does not prescribe any contraception.

ILLINOIS	Presence St. Francis	Evanston			0	0	0	0		17.'18 Season: PD stated that he would have no problem with NFP-only resident (unsure if this is a genuine answer or a legal-protection answer). There are no other NFP-only residents, and they perform 2nd trimester abortions at the secondary hospital where residents are expected to work. Other residents seems open to having an NFP-only resident. Dr Theresa Stigen was an NFP-only resident here 2004-2008 and later completed Napro Fellowship. She has expressed difficulty being NFP-only here, but much could have changed since 2008.

KANSAS	U of Kansas - Wichita	Wichita								15-'16 Interview Season: Residents specifically asked about NFP as it was in my application. This "pretty much shut down the interview" as they were not impressed.
KANSAS	U of Kansas - Kansas City	Kansas City								
KENTUCKY	U of Kentucky	Lexington								
KENTUCKY	U of Louisville	Louisville			0	0	0	0		2017: Ryan program. Intern inserts nexplanons almost daily in postpartum patients. I know when NFP med student interviewed last year PD said she thought they could work something out, but from just spending a lot of time in the program I'm wondering how they really would be able to make it work. Great compassionate faculty and residents who care about patients and just happen to have different views than us, so maybe they would be able to respect where we are coming from if presented in the right light. Overall though, I think it's a great program and I get along with the residents very well. It's a pity that I think it would be very hard to be NFP only here.

MICHIGAN	Wayne State	Detroit								17-'18 Season: PD seemed very open to NFP-only resident, stated resident could go to didactics instead of FP (family planning / abortion) elective, but the residents told me that you still have to physically go to the termination clinic, you just don't have to actually do the terminations- so a little confusing?
MICHIGAN	St. Joseph Mercy Health System	Ypsilanti			0	0	0	0		17-'18 Season: No NFP residents, but PD said they could possibly accommodate '17-'18 Season: Best response here. PD was sincere and very very willing to work with you and brainstorm. Hospital does do tubals and prescribe BC on campus. No FP (family planning / abortion) elective as of now, but they are working on adding one.
MICHIGAN	Henry Ford Hospital	Detroit								
MICHIGAN	St. John Hospital and Medical Center	Detroit								17-'18 Season: Bringing up NFP was EXTREMELY awkward. MISSOURI	Saint Louis University (SLU)	St. Louis	0	0	0	3	0	0	1	17-'18 Season: Very recepitve to NFP-only residents. Excellent program. No BC or Sterilizations in the hospital (except for what is approved by the ethics comittee, which seems to be more than what ERDs allow). No LARCs placed in clinic.
MISSOURI	Mercy St. Louis	St. Louis	2	1	2	0	1	1	2	17-'18 Season: Multiple NFP-only residents have graduated from here. Napro Dr Gavin Puthoff is a private attending here as of 2017. In 2012, there were 6 NFP-only residents in the program. See article: http://archstl.org/files/nfp_st_louis_review_3-9-2012.pdf. The program director however is growing in he support of termination training. 2 residents graduating this year are going on to NaPro fellowship. Currently 2 other NFP-friendly. Other residents were very supportive. 2018: PD allows NFP-only residents, but doesn't necessarily encourage it. PD helps other residents get into family planning fellowships.

NEW JERSEY	Jersey Shore University Center	Neptune								
NEW JERSEY	Rutgers New Jersey Medical School Program	Newark								
NEW JERSEY	New York Medical College at St. Joseph's Medical Center	Paterson								17-'18 Season: Appear to go step-in-step with the bishop. With a more liberal bishop in the past they have performed more controversial procedures. However, current bishop is extremely conservative. They do not even counsel for birth control because they do not prescribe it; they refer to another provide who can both prescribe and counsel. Asked if I would be okay with book-learning about contraception. Residents seem fine with this state of affairs, say that tubal ligations and contraception is easy to learn about and that they don't feel deprived by the hospital being Catholic.
NEW JERSEY	St. Peter's University Hospital/Rutgers Robert Wood Johnson Medical School Program	New Brunswick								2017: VERY supportive due to former NaPro fellow's presence: Dr. Kyle Beiter. I felt very welcomed here. Would highly recommend looking into the place as Beiter has a good reputation.
NEW JERSEY	St. Barnabas Medical Center	Livingston								17-'18 Season. Non-religiously affiliated program. Called before applying to gauge receptiveness of program to NFP-only applicant. PD was apparently asked, and said that it would not be a good fit, as they do abortions.
NEW JERSEY	Rutgers Robert Wood Johnson Medical School Program	New Brunswick								17-'18 Season: PD said that they once had someone who did not perform tubal ligations and that since that person worked hard otherwise, they made it work as a program. Currently one resident there who does not perform terminations. However, another resident is passionate about expanding the family planning services offered and they are getting a new Chairperson who has a very strong background in reproductive medicine (egg and embryo donation, etc) who seems to share the same goal.

NEW YORK	Richmond University Medical Center Program	Staten Island								17-'18 Season: PD said that that they would be open to a NFP-only resident, but that that is something else that they will have to consider (which I took to mean that it might affect my rank on their list). This hospital used to be Catholic, is no longer religiously affiliated.

NEW YORK	Nassau University Medical Center	East Meadow								
NEW YORK	New York Presbyterian Hospital (Cornell Campus)	New York								
NEW YORK	South Nassau Communities Hospital	Oceanside								17-'18 Season: Asked by two separate interviewers whether I would prescribe birth control for "irregular periods". Not sure if it was their intention but that is the precise wording used by many Catholic hospitals to prescribe birth control without calling it birth control (this is not a religiously affiliated hospital, however). Their lack of manpower (very new program, currently increasing the number of residents to goal) makes me think that it would be hard for them to allow people to opt-out of performing certain procedures/writing certain prescriptions.

NEW YORK	Icahn SOM at Mount Sinai/St-Luke's-Roosevelt Hospital	New York								
NEW YORK	SUNY Downstate Medical Center	Brooklyn								17-'18 Season: Had to explain what a NFP-only applicant was to PD. PD went on to say that we do not respect religion enough in our society. However, considering the heavy Family Planning presence in tha residency (they are currently trying to start a fellowship in it) and prior ignorance of NFP-only candidates I am unsure how much of the answer was legal-protection vs. true sincerity.

My guess is that they were not thrilled about the idea of an NFP-only applicant. '17-'18 Season: PD director seemed relatively comfortable with an NFP-only applicant. His assistant/right hand faculty member said that I was a great candidate and that she felt that it was important to be open-minded about things such as NFP-only applicants. Asked if Iwould be willing to prescribe BC for medical condition even if it had contraception as a secondary effect or indication.

NEW YORK	U at Buffalo (Sisters of Charity)	Buffalo		1	1	0	1	1	2	'17-'18 Season: Very Catholic PD (Pivarunas) and assistant PD (Strittmatter) and the program is at a Catholic Hospital, so there is no issue for NFP-only residents. ОНЮ	Riverside Methodist Hospitals (OhioHealth) Program	Columbus								17-'18 Interview Season: Very open to NFP-only resident. PD stated that the only thing he couldn't accommodate was someone who wanted to do terminations after the 2nd trimester.
ОНЮ	Wright State Program	Dayton	0	0	0	0	0			2016: Graduated 2 NFP-only military residents, most recently in 2014, but none since. Hospital does not do abortions, but they do sterilizations. '17-'18 Season: PD wasn't thrilled about NFP, but had a few prior colleagues so he was familiar and thought it would be "ok"
ОНЮ	University of Toledo	Toledo								17 - '18 Season: PD stated she thought it could work, but she didn't seem very sincere. However, she was recently removed. As this is my home institution, I was very close with the chair and he didn't think it would be a problem at all, very nice man, willing to work with you. I think the way this program operates and the residents would make it very hard to be NFP only here. Also there is talk of transgender surgeries in the next couple years, so possibility more moral dilemmas on the way.
ОНЮ	SUMMA Health Systems	Akron								2016: not a Catholic program, but their program director is Catholic and they have had many residents with a contentious objection to sterilizations in the past and were very open to the idea of a Catholic resident who didn't want to prescribe birth control or do sterilizations '17-'18 Season: PD seemed very open and comfortable with the idea of NFP only.
ОНЮ	U of Cincinnati	Cincinnati								2015: at least verbally open to an NFP-only candidate at interview. Excellent program all-around. 2017: I did an away rotation here so I knew everyone fairly well and bringing up NFP was still very uncomfortable. They stated that they accommodate this "all the time", but in my opinion this was just something they said for legal purposes. The program is very liberal. Even if you opt out of doing terminations you still have to physically go to Planned Parenthood on the FP (Family Planning) elective to counsel women.
OHIO	Doctors Hospital	Columbus								
OHIO	Ohio State University	Columbus								
ОНЮ	Akron General Medical Center	Akron								17-'18 Season: PD said it would be "difficult" to accommodate and questioned why my home institution let me apply to this field. In my opinion, not a chance here.

TEXAS	U of Texas at Austin Dell Med Sch Program	Austin			0	1	0	0		2017: NFP-only resident likes the program, but the the PD is now a family planning specialist; this program requires about a month at Planned Parenthood. there is an alternative month that the single NFP-only resident created, but has not been used since.
TEXAS	John Peter Smith Hospital Program	Fort Worth								2017: Very supportive of Family practice NFP residents who practice NaPro - would highly consider looking into it! 2015: Several NFP only FM residents as well as an OB resident in 2013. Very supportive.
TEXAS	TEXAS A&M	Temple	0	0	0	0	0	0		2016: open and friendly in interview process to specific questions about not prescribing contraceptives. No actual residents have been NFP only here. 2015: PD at the time was Catholic and very supportive. It hasn't been done in the past, but she said it could be arranged.
TEXAS	U of Texas Southwestern	Dallas	0	0	0	0	0	0		2015: NFP-only applicant rejected out of hand despite excellent scores. Very pro-abortion program
TEXAS	Methodist Hospital of Dallas	Dallas								2016: Listed on http://medicalmatins.blogspot.com/ as friendly to NFP-only residents from a historical applicant.
TEXAS	U of Texas Medical Branch	Galveston								
TEXAS	Texas Tech University Affiliated Hospitals	Permian Basin								
TEXAS	Methodist Hospital	Houston								2015: At least 2 NFP only docs have graduated from this program, in 2011 and 2013. Supportive and well aware of the path you would want to take.
TEXAS	Baylor College of Medicine	Houston								2015: NFP-only subintern offered an interview which was then never scheduled after that person asked about PD's opinion of trying to be NFP-only. Perception is that the program would not be friendly. 2015: Very malignant program. I was interrogated regarding my religious beliefs repeatedly and was very intimidated. The APD is the director of the largest Planned Parenthood in the US, which happens to be in Houston.
TEXAS	Baylor University Medical Center	Dallas								2015: PD open to "making it work" when asked about not prescribing contraceptives. No abortions in the hospital. Chair was possibly less friendly but now not the chair anymore.
TEXAS	U of Texas (RGV) (DHR) Program	Harlingen								
TEXAS	Texas Tech University Affiliated Hospitals	El Paso								
TEXAS	Texas Tech University Affiliated Hospitals	Amarillo			0	0	0	0		17-'18 Season: PD stated that she would have no problem with NFP-only resident (unsure if this is a genuine answer or a legal-protection answer). However, there are no other NFP-only residents.
TEXAS	U of Texas Houston - MH / LBJ Program	Houston								2015: PD stated in interview that it could work, but perception of interviewee was that this may have been an olive branch or may not have been a durable promise.
UTAH	U of Utah	Salt Lake City								2016: Listed on http://medicalmatins.blogspot.com/ as friendly to NFP-only residents from a historical applicant.
